Webinar: October 16, 2020, 12:00 pm – 1:30 pm EST

Heritage and Waste

Values, Circular Economy and Deconstruction

How can heritage and conservation better address the waste of building materials? This free webinar discusses new approaches and strategies with reference to dynamic heritage values, Circular Economy principles and practices of deconstruction for reuse.

The speakers all contributed to the 2020 special issue on 'Heritage and Waste' of the *Journal of Cultural Heritage Management and Sustainable Development.*
