

APT Australia Chapter – Longford Academy 3-Day Course in Advanced Conservation Techniques at Woolmers Estate

**Wood, Metal, Plaster and Masonry
19-21 May 2010**

A short course in the conservation of exposed wood, metals, plasters and porous masonry materials at Woolmers Estate and Brickendon Estate—nominated for World Heritage inscription.

COURSE OUTLINE

The course will cover advanced conservation treatments for weathered wood, iron, galvanised steel and roofing systems, exterior and interior plaster finishes and porous masonry materials.

COURSE PRESENTERS

The course is developed and presented by the Association for Preservation Technology International, Australia Chapter. All presenters are experienced educators and heritage professionals, including graduates of the International Courses in Wood Conservation (Norway) and Stone (Venice).

VENUE

Indoor classes will be held in Woolmers Cottage, an outstanding 1840s building overlooking the Woolmers Estate. Inspections of recent conservation works, demonstrations and outdoor activities will be held on site at Woolmers and Brickendon Estates.

COST

Tuition fees of \$750 (\$600 full-time students and APT members) cover teaching, all activities and daily meals.

ACCOMMODATION

On site B&B accommodation is available at Woolmers Estate (www.woolmers.com.au/) and Brickendon Estate (www.brickendon.com.au/).

BOOKINGS

For further information and bookings contact Jennie Chapman, Site Manager, Woolmers Estate on 03 63912230.
