

BURRA CHARTER WORKSHOP

BURRA CHARTER WORKSHOP WA

As part of the Burra Charter development program, Australia ICOMOS is running a series of workshops in order to engage directly with members about the range of tasks related to the Charter, the current guidelines and possible future guidelines. These workshops will supplement information gathered through the electronic surveys advertised in the e-news and other research. The workshop will include a report back on findings so far, as well as explore a range of issues related to the Charter and its guidelines.

Please come along with your thoughts and observations about such things as...

- what do you most appreciate about the 'new' Burra Charter?
- is there anything you would like to change about the Charter?
- are the existing guidelines useful or should they be changed?
- should we develop new guidelines and, if so, on what?

Members and non-members who use the Charter regularly are welcome. Join us for drinks and nibbles after the formal part of the evening.
