

CARPENTRY AND JOINERY WOOD REPAIR WORKSHOP at the Longford Academy 6, 2015

Woolmers Estate, Longford, Tasmania - Thursday 14 May 9.00am – 4.00pm

Carpenters, joiners, wood workers, conservation practitioners, property managers and specifiers are invited to attend a one-day practical workshop on APT-approved timber repair systems presented by specialist contractor Gary Waller of AllWays Wood Joinery, Sutherland NSW, with assistance from Chris How (joining and structural issues), David Young (decay mechanisms) and Donald Ellsmore (coatings).

Outline of Workshop

- Processes for examining and evaluating condition of wood in structures
- Understanding joints and fastenings – significance, condition and re-use
- Approach to repair – extent, joining, timber selection, cutting out and preparation
- Finishing repairs – allowing for shrinkage and movement
- Selection and application of coatings for wood

Attendance \$100 (includes lunch).

To register, contact the APT Convenor by email: apt.australasia.chapter@gmail.com

Sponsored by TBCITB.

To be considered for funding assistance apply directly to the TBCIT Board at least three working days prior to commencement of the course. Approval must be obtained before the course commences

CARPENTRY AND JOINERY
WOOD REPAIR WORKSHOP
at the Longford Academy 6, 2015

Woolmers Estate, Longford, Tasmania - Thursday 14 May 9.00am – 4.00pm

The Longford Academy Carpentry and Joinery - Wood Repair workshop is delivered by Gary Waller, with assistance from the Longford Academy coordinators.

About Gary Waller

Gary Waller is a conservation specialist contractor and joiner. Gary is Managing Director of G&C Waller Builders. He operates a heritage joinery shop at Sutherland (AllWays Wood Joinery) employing a specialist team of joiners using tradition belt-driven machinery and modern equipment to reproduce high quality work in repairing and conserving joinery and in new works. His conservation projects in NSW include many highly significant heritage buildings.

G & C Waller builders is a Sydney-based, family-run building company specialising in the conservation and restoration of historic buildings and production of high quality joinery, since 1982.

Gary Waller employs a philosophy, which is centered around the retention and preservation of original building fabric. He understands the important connection that many Australians feel towards their history and community and looks to preserve as much of our built heritage as possible.

Gary is assisted in the delivery of this workshop by Chris How (fastenings and structural issues), David Young (wood decay) and Donald Ellsmore (coatings).
