

PROFESSIONAL DEVELOPMENT DAY

2 CPD FORMAL POINTS

*AIA

Join Colgan Industries and the National Trust, along with John, Peter and Kelly to discuss heritage based solutions for heritage places. John Heseltine will be travelling from the UK to present a technical presentation that will focus on Helifix engineering solutions for heritage places. There will be an opportunity for questions and answers.

Expert Presentations & Demonstrations in:

Structural Engineering

Stone Masonry

Heritage Conservation

Date: 19th of February 2016

Address: Gallop House

22 Birdwood Parade, Dalkeith

Gallop House, built by the Gallop family in 1874-1876, is significant for its associations with Adam Armstrong and the Gallop family, and is associated with former market gardens, orchards and vineyards. The two storey rendered limestone and former brick residence is a prominent landmark high above the bank of Melville Water. It is a place of State heritage significance.

1pm: Gallop House, History and Significance

Speaker: Kelly Rippingale

National Trust of Australia

1.20pm: Parliament House to Rottnest
