

Conservation Management Planning: the What, Why and How for Historic Gardens, Landscapes and Buildings Saturday 27 September 2014

A workshop organised by the
Australian Garden History Society, ACT Monaro Riverina Branch
Venue: St John's Anglican Church precinct, 45 Constitution Avenue, Reid

This date is during **Floriade** so it may suit people from outside the region to combine the workshop with a visit to Canberra.

The term Conservation Management Plan (CMP) is frequently used in the "heritage business" but is foreign to most of us. Just what are CMPs? How do they work? Why do we need to know about them? The ACT Monaro Riverina Branch of the AGHS has put together a workshop to help answer some of these questions. Appropriately, the workshop will be at St John's Reid, one of Canberra's most historic sites.
