

FOCUS on “Dialogue among Cultures. Carnivals in the World”

International Symposium (Florence, February 3-4 | Viareggio, February 5-7, 2016)

The 1st International Symposium *Dialogue among cultures. Carnivals in the worlds*, will take place in Florence, (February 3-4) and Viareggio (February 5-7, 2016). The Symposium offers a reflection on the international Value of Intangible Heritage as defined by UNESCO, or rather practices, representations, knowledge and techniques that must facilitate a strong sense of cultural identity (UNESCO, Declaration of 2003) among the communities, groups and individuals. This Cultural Heritage is showed in different sectors of human activity: art, economics, sociology, anthropology, architecture, engineering, etc.. So the Carnival plays an important role in the cultural world because it proposes to protect an important traditional heritage and to strengthen the cultural and social integration between East and West. Another very important aspect is the education to the popular culture, a fundamental educational process for the new generations to promote knowledge of the history and the value of their local heritage.

See you soon in Florence
