ARCHITECTURE

Saving Cities – for historical, cultural and economic benefits

HEAT Architecture, Riddel Architecture, Conrad Gargett, the University of Queensland and the State Library of Queensland are delighted to invite you to a lecture by Professor Ruan Yisan during his first Australian visit.

UNESCO winner, Professor Ruan Yisan has successfully conserved cities and towns in China for enormous social benefits for over 30 years.

As an urban designer, Professor Ruan specialises in the dynamic and sustainable redevelopment of historic towns and cities throughout China, while preserving their heart and heritage. He has transformed these into important cultural heritage sites and international tourist destinations.

Professor Ruan is director of the National Research Centre of Historical Cities at Tongji University in Shanghai, and founder/chair of the Ruan Yisan Heritage Foundation.

This is a valuable opportunity for you to hear directly from one of Asia's most prolific heritage and adaptive reuse designers.

Professor Ruan will also launch a definitive exhibition of his work at the State Library of Queensland (10–17 May).

Date **Tuesday, 10 May 2011**

Lecture **4:30pm**

Exhibition launch and refreshments from 6.00pm
