

Julfa Cemetery Digital Repatriation Project

Magnet Galleries is hosting

Dr Judith Crispin,

Chief Investigator and Director of Photography and Sound Design
for the Julfa Cemetery Digital Repatriation Project (Australian Catholic University).

This project is seeking to digitally recreate 2000 medieval UNESCO Intangible World Heritage monuments, destroyed in 2006 by military forces in Azerbaijan, and return them to the Armenian people.

This digital repatriation will take the form of large VR-installations based on historical photographs and new photographs taken of surviving monuments in Armenia and its environment.

You are invited to hear Judith discuss the project's challenges and progress

Saturday 17th October 2015

4pm

at Magnet Galleries, 2/640 Bourke Street, Melbourne.
