

International Meeting [Webinar]

REUSE AND REGENERATIONS
OF THE CULTURAL RELIGIOUS
HERITAGE IN THE WORLD
Comparison among Cultures

PRERICO

ICOMOS International Scientific Committee
on Places of Religion and Ritual

June 10 | 2021
1.00pm CET

PRERICO, the ICOMOS International Scientific Committee on Places of Religion and Ritual, promotes an intercultural meeting with PRERICO members and invites all **ICOMOS** members to open a dialogue on the reuse and regeneration of religious cultural heritage in different countries of the world.

This meeting aims to approach ICOMOS members to a very important topic that we must analyze also in relation to the goals of Agenda 2030. All scholars and professionals are invited to propose experiences, projects, opinions, documents and ideas, because we believe every person is able to research, learn and communicate their cultural experiences for the development of humanity.

This meeting also aims to start a collective work with a common document on this important topic. During this international meeting, we will discuss the shared meanings and human values on which each nation must build cultural policies and relations with other countries in order to preserve and enhance the cultural religious heritage.

All PRERICO and ICOMOS members are welcome to participate as speakers. We are expecting a two hours Webinar with about 10 speakers, giving 10 minutes presentations. The Webinar can be extended if there are more speakers than expected.

MAIN ISSUES

1. Theoretical approaches: conservation, regeneration, and reuse.
2. National laws, local recommendations, and legal procedures.
3. Projects and best practices.
