

International Conference 2018

SUSTAINABLE INFRASTRUCTURE FOR THE BUILT ENVIRONMENT

29, 30 and 31 October 2018
New Delhi, India

RICS School of Built Environment (RICS SBE), Amity University, India, in association with RMIT University, Australia present an International Conference on Sustainable Infrastructure for the Built Environment. This conference is in continuation to the **"Symposium on Sustainable Development Research in Asia-Pacific (SDIAP), RMIT, 2017"**. It will bring together academia and industry experts to deliberate on the way forward for growth of sustainable infrastructure in the 21st century. An international luminary and academician will be the keynote speaker.

Papers relating to sustainability and sustainable development goals on the following sub-themes are invited:

- ▶ Policy and legal framework
- ▶ Financing and partnerships
- ▶ Technology and innovation
- ▶ Project planning, design and construction
- ▶ Asset management
- ▶ Education for sustainability, training and capacity building

29 & 30 Oct - Academic conference
31 Oct - Industry conference

Conference proceedings shall be printed under an ISBN series. Selected papers will be published in a book and/or in a refereed journal. Administration of all submissions shall be through Easy Chair.
