

RESTORATION OF SHREE SANA KISAN SAHAKARI SCHOOL BUILDING

In Nepal due to inadequate infrastructure and resources more children are suffering the consequences of child abuse and trafficking. Desperate parents, seeking the best for their children, unwillingly push them to labour and trafficking in absence of adequate schooling.

Harsh reality but it is true!

Nepal Australia in collaboration with Applied Building Conservation Training (ABCT), believes in making a difference by helping others. Our ongoing project at the Shree Sana Kisan Sahakari Secondary school is yet another example of what can be achieved to make a difference. Come join us and help to change their lives and rejoice in the smiles. Restore the school to a habitable standard using traditional methods and restoration skills.

A Journey to Explore

- ▶ Get a firsthand Experience of Nepali Hospitality
- ▶ Experience the richness of Nepali Cuisines
- ▶ Exciting and picturesque landscape
