SAHC 2012

8th International Conference on Structural Analysis of Historical Constructions

October 15–17 Wrocław Poland

FIRST ANNOUNCEMENT AND CALL FOR PAPERS

Abstract submission
d e a d l i n e :
31 October, 2011

Main organizer:

Institute of Building Engineering, Wrocław University of Technology, Faculty of Building Engineering, Poland

CALL FOR PAPERS

SAHC - 2012 will bring together scientists, engineers, designers, architects, conservators and chemists who will present conservation research, theories, doctrines and achievements.

The main conference topic will be:

- Conservation of concrete, brick, stone and timber structures,
- Modernization and re-use of cultural heritage buildings,
- NDT technologies,
- Theory and practice of conservation,
- Repair and strengthening techniques,
- Rehabilitation and safety,
- History of construction, building technologies and materials,
- Analytical and numerical approaches,
- Experimental results and laboratory testing,
- Innovative and traditional materials / technology,
- Seismic behavior and retrofitting,
- Stabilization and valorization of historical ruins,
- Laser scanning.

The scientific program includes parallel sessions, poster session, and special session on safety of historical structures and new versions of standards.

During the Conference the companies will present innovative technologies related to the strengthening, conservation and repairs of traditionally erected and historical structures and testing equipment.

LANGUAGE

The official language of the Conference is English. Translation services are provided.
