This conference follows the success of the event entitled 'Sustaining Places of Worship - New Ideas for South Australia' which took place on Friday 14th September 2012.

The purpose of this 2014 conference is to explore current methods and ideas in the Practical Conservation and repair of church buildings in South Australia. There will a diverse range of speakers and topics and plenty of opportunity for delegates to contribute through debate and networking.

Split into two sessions, the morning will begin with a series of short talks by the guest specialists followed by a refreshment break. The second session will allow the delegates an opportunity to be involved in their choice of two discussion workshops chaired by the specialist speakers and involving questions and answers relating to the speakers' earlier talks.

Please direct this invitation to anyone who may be interested in attending. Please refer to attached Programme and Biographies & Talks.
