- Entry level position with strong career development opportunities**
- Flexible and dynamic environment**
- Work as part of a multi-disciplinary team of industry experts & leaders**

Who We Are

Urbis is a market-leading firm with the goal of shaping the cities and communities of Australia for a better future. Drawing together a network of the brightest minds, Urbis consists of practice experts, working collaboratively to deliver fresh thinking and independent advice and guidance – all backed up by real, evidence-based solutions.

Working across the areas of planning, design, policy, heritage, valuations, transactions, economics and research, the expert team at Urbis connect their clients in the public and private sectors to a better outcome, every time.

The Opportunity

The continued growth of Urbis in Sydney means we are looking for a motivated and energised professional graduate heritage architect - Consultant to join our Heritage team. We are looking for a lateral thinker and outstanding communicator seeking an opportunity to be involved in city-shaping projects for a diverse range of private and public sector clients.

About You

As the graduate heritage architect / Consultant your responsibilities will include:

- Drafting of existing buildings
- Drafting of conservation works
- Conservation and maintenance works scheduling
- Some new construction design and detailing (kitchens bathrooms and existing adaptive re-use)
- Assisting in the preparation of various written heritage reports including impact statements and conservation management plans
- Working across a wide range of applications with ability assist in developing proposals, tenders & submissions for potential projects
- Assisting in the undertaking of projects, client and other stakeholder relationships and work to specification and deadlines

This position would suit someone who is a recent graduate of architecture with a strong interest in heritage, a recent graduate of the heritage masters program that has a strong desire to work on the architecture side and has a basic level of 2D cad experience, a building draftsman or designer with a strong interest in heritage or someone with some experience in a similar role with a combination of the following competencies:

- Basic understanding or strong desire to learn of Heritage and statutory planning principles at the strategic & technical level and provide practical advice.
- Must have a basic level of 2D AutoCAD skills

- Previous heritage experience would be desirable but not essential
- Basic understanding of Photoshop
- Ability to understand heritage research and present a preliminary assessment of findings
- Basic understanding of and ability to apply appropriate statutory heritage and planning legislation to heritage issues

Qualifications and experience

- Would suit a building draftsman or designer with a strong interest in heritage
- Would suit a graduate architect with a strong interest in heritage
- Would also suit a recent graduate of the heritage masters program that has a strong desire to work on the architecture side and has a basic level of 2D cad experience
- Tertiary qualifications in, Architecture, Heritage, History or related discipline, TAFE qualification related discipline, or demonstrated relevant experience
