ACKNOWLEDGEMENTS		438-439
BOOK FUND	Contributors list	440-441
INDEX		442-464

Walter Burley Griffin: the Architecture of Newman College, 1915-18

BOOK FUNDING APPEAL, June 2018

Pre-paid orders for a new publication on the Griffins' architecture, exemplified in the Newman College Initial Structure, 1915-18, are presently being accepted at \$100, per printed copy, (plus postage, if located other than in Melbourne). The book funding total is for self-publishing printing, by Vivid Publishing, of my recently revised manuscript. This manuscript has now been printed, and the book is available for delivery from 15 June. ISBN: 978-1-925681-62-8

The new book will be one volume of two parts, "Specific" and "Form", rather than the two volumes of the original 2004 PhD thesis. Part 1, Specific, describes the Newman College Initial Structure, 1915-18: the building and its participants in the design and construction. Part 2, Form, is a detailed analysis of the Griffin design, its planning, construction, elements and details. An Envoy concludes with the relevance of this study to the Griffins' whole careers. The book has text and images on further research topics since 2004, has many new illustrations, and a new layout that juxtaposes the text and the images very effectively.

For cheques (or money orders), "JJ Turnbull Book Funding", please post:
