The theme for this year’s **International Day for Monuments and Sites** on 18 April has been chosen by UNESCO to mark the 40th anniversary of the UNESCO World Heritage Convention, which was adopted in 1972. The focus will be on “*World Heritage and Sustainable Development: the Role of Local Communities*”, considering community involvement in the nomination process, their management and conservation of properties and the impact of such sites on communities from a socio-economic perspective.
