APT AUSTRALASIA CHAPTER – LONGFORD ACADEMY

5-Day Program in Advanced Conservation Techniques at Woolmers and Brickendon Estates, Tasmania

INFORMATION FOR PARTICIPANTS

The Longford Academy is a collaborative learning program led by experienced APT educators. Participants are engaged in activities, which may include information sessions, discussions, inspections, investigations, recording, minor works and group activities.

The following terms and conditions apply.

All activities are undertaken on site at significant heritage places (Brickendon and Woolmers) or nearby places. The program of activities is tailored to suit the conservation needs of the places and available resources, including the skills of the participants.

APT and participants are deemed to be 'visitors' at the historic sites. All site regulations and codes of behaviour must be observed at all times.

Participants are required to arrange their own accommodation. APT in conjunction with Brickendon and Woolmers provides tea, coffee, snack food and lunches. It does not provide accommodation or evening meals. Participation fees cover limited transport, overheads and daily lunches and snack food.

Each participant is responsible for their individual safety and the safety of others during the program. Participants should carry individual insurance, including travel insurance. Participants should satisfy themselves that they are suitably fit and able to participate safely before participating in individual activities on site.

The program is subject to change according to weather conditions. If site conditions are unfavourable activities may be relocated indoors or cancelled.

All participants should come prepared for the full range of potential activities and wear suitable clothing. Please refer to the following list of recommended materials and equipment.

- Warm clothing and sun/rain/wind protection, including beanie and gloves
- Sturdy footwear – beetle crushers recommended
- Overalls or disposable coveralls
- Personal safety equipment (safety goggles, work gloves, kneeling pads, head torch)
- Thermos and mug
- Clipboard, notepad, camera and personal specialised equipment

APT provides support including Launceston Airport pick up and drop off (subject to prior notice), transport between sites, individual lunch orders and special dietary needs (subject to availability) and professional planning and management of all activities.

Please note that mobile phone reception and wi-fi cannot be guaranteed on site.
